

the
IDGTE
AGM
& Presentation

Tuesday 7th November 2017
Royal Academy of Engineering,
Prince Philip House, 3 Carlton House Terrace,
London SW1Y 5DG

This year's AGM is once again being held at the prestigious Royal Academy of Engineering. Following the AGM an open invitation is extended to join us for a **a buffet lunch at 12.30pm, followed at 1.30pm by presentations from Clarke Energy and Q8 Oils.**

An Insight into the Latest Developments on Gas Engine Technology and Appropriate Engine Selection

Adam Wray-Summerson, Major Project Specialist, Clarke Energy

The presentation will explore the latest developments in Gas Engine Technology focusing on optimisation of performance for key applications such as industrial CHP and tri-generation. It will cover feasibility analysis and commercial viability of whole plant projects including appropriate engine selection, operating regime, balance of plant, gas clean up and emissions to deliver financial and environmental benefits.

New Synthetic Gas Engine Oil Ranges Mahler GR5 and GR8

Joris van der List - Energy Product Line Manager, Q8 Oils

The presentation will cover the future requirements for gas engine oil performance and the challenges faced as a lubricants manufacturer.

There is no charge for attendance at this event. If you or any of your colleagues would like to attend, please phone Carole or Sandra at the IDGTE office (01234) 214340 or e:mail enquiries@idgte.org to register your place.
